

YUVANIKA GN

As an AI student, I'm passionate about data analytics, extracting valuable insights to drive decisions, and designing intuitive, responsive websites. I aim to blend AI with creative design and development to create innovative tech solutions that enhance user experiences.

EDUCATIONAL BACKGROUND

SAVEETHA SCHOOL OF ENGINEERING

Bachelor's Degree in Artificial intelligence and Data Science

CURRENT CGPA - 8.6

2023 - Present

VANA VANI MATRICULATION HIGHER SECONDARY SCHOOL

HSC | 2022 SECURED 82.3%

SSLC | 2020 SECURED 76.8%

SKILLS

Technical Skills

- Programming: Proficient in C, C++, Java, Python, and R.
- Web Development: Skilled in HTML, CSS, and JavaScript.
- Data Analytics: Experienced in analyzing data and drawing insights.
- UI/UX Design: Competent in designing user-friendly interfaces.

Soft Skills

- Effective problem-solving and analytical thinking abilities.
- Creative approach to design and innovation.
- Strong collaboration and teamwork skills.
- Clear and concise communication.
- Excellent time management and adaptability to changing environments.

Languages

- English (Fluent)
- Tamil (Proficient)

Certification/Short Courses

- MATLAB Onramp on Mathworks
- Image processing Onramp on Mathworks
- Frontend development in Great Learning
- Java programming in simplilearn
- Attended Offline workshop on Artificial intelligence

PROJECTS

RESPONSIVE WEBSITES

- Developed a responsive frontend website for cafe and grocery store

CORE PROJECT

Plant leaf disease detection

- Developed using machine learning and image processing algorithms.
- The project involved preprocessing images of leaves, extracting features
- Classifying diseases with high accuracy, contributing to early disease detection in agriculture.

MINI PROJECTS

- Number Recognition System
- Automatic Certificate Generator
- Virtual Calculator

ACHIEVEMENTS

- School house captain 2020-2022
- Participated in interschool sports and cultural events
- Zonal level handball player
